

SUMMER BREAK: MATH CHALLENGE

Dear Future Third Graders,

I hope you have a wonderful summer, whether you are traveling or staying local. Please enjoy some time with your family and remember to work on spreading kindness wherever you go!

To keep our math skills sharp, we are offering the following challenge. Students should complete a MINIMUM of **20 green light sessions** over the summer using their Reflex Math account OR **15-20 minute I-ready Math sessions**. Students may do a combination of both programs if they choose to do so.

Please fill in a star with the date for each “green light” you achieve on Reflex Math or I-ready session you complete and have your parents initial below the star to confirm your work:

 _____	 _____	 _____	 _____	 _____
